

# Vote Hari Titan

for

Piedmont Board of Education

November 6, 2018

I envision and have the know-how to implement:

## An Excellent Education

- Hiring the best of the best with multiple candidates interviewed for every job
- Carefully finding ways to improve already very good schools by using an online forum to create a synergy between teachers, district leaders, parents and students

## Fiscal Responsibility

- Competitive bids
- Low cost financing
- Eliminate exponentially compounding interest charges on property taxes
- Debt financing for Productive Purposes Only
- Financial long-term planning & forecasting

## Accountability

- Committee meetings should be Brown-enacted with recordings and transcripts available online
- Track district issues using an online forum mobile app with a public survey feature
- Disclose Board member holdings of school bonds

# Hari Titan

*Ph.D with professional experience to offer the district responsible financial and academic oversight*

My advanced analytical expertise, patience and persistence paid off. For example, I found and raised as issues with the District/Board and public:

We were paying full-day teacher salaries but didn't have extended-day kindergarten due to a shortage of classrooms.

Taxpayers could have saved \$40 Million in compound interest charges for the Havens rebuild had we started paying for it right away.

That bond will be paid off in 2023 saving taxpayers \$26.1 million or \$8,700 per parcel from now until 2043.

In 2014 I promoted STEM school performance. Since 2014 we have moved up in STEM performance.

For more details check out in-depth articles on these topics and more on my website. I have a passion for making the schools the best they can be, dedication to researching the best options, and explaining complex concepts to the community.

Objective. Diligent. Resourceful. Thought Leader.
